Healing in Evangelization Retreat Weekend

12~14 Aug 2022 (Fri~Sun) at
Catholic Church of St Michael, Ipoh, Perak

The Retreat was an eye-opener to me in my journey of life with the Lord and peace and joy when I was in fellowship with other Catholics. The Healing service was good with the manifestation of the Holy Spirit.

I can feel the touch of Jesus, a cooling sensation from my fore-head to my palm. I felt joy and peace within me. It's a special feeling, can't really describe it.

Praise
the Lord

I experienced healing from the constant nerve pain in my hand during this retreat.

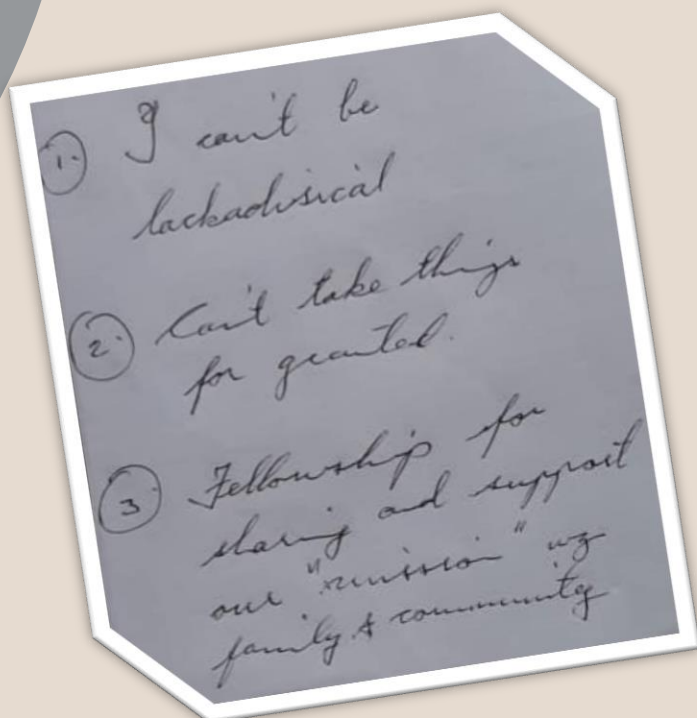

Group 20
It's a healing of my inner wounds and the part of sin that I kept within me all these while. I am set free from my darkness. I am set free from the bondage of sin that kept me away from the Lord. Now I see the light within me, I see Christ's light and I will set my heart on him by setting apart time for prayers, adoration and reflection on my daily life to follow his foot steps. Guide me and protect me through your beautiful blood that was shed 2000 years ago. You thought of me and shed your precious blood for me. Thank you Lord, I love you, I give all honour and praises to you my Lord.
Amen.

God's love has been poured out into our hearts through the Holy Spirit who has been given to us. -Romans 5:5

On 2nd day of retreat, I was suffering of chest pain decided to go to seek medical advice first before continue joining the session. It was amazing when I heard Father Gino share that someone went to see doctor recently, pray more and receive Holy Communion more frequently. I know Jesus is talking to me. He want to heal me not only physical and also emotionally. Praise God I am reborn with Jesus healing hand. After the healing session, I felt I have relief my chest pain and felt more comfortable and lighten myself but I still felt numbness in my leg until midnight. I pray to Lord, please heal my illnesses and depression and Anxiety feeling because I have suffering of illnesses since March until now still on medication. I felt that life is no more meaningful, no more happiness , I don't have any passion to live longer. I pray to Lord, please grant me happiness, healthy and passion on my life. Amazing! Praise to the Lord! This early morning I received a Gospel which sent by a ME sharing couple which reflect my prayer is heard by Jesus. The injured I will bind up, the sick I will heal. My child, don't be grabbed by darkness and hurt, turn to me!

I am grateful to have attended this retreat as this make me feel closer to Lord. I had some serious family issues before coming coz Satan was doing a good job to as giving me second thoughts to attend this event or not. But I fought all odds n m very grateful n blessed to be there yesterday. Praise the Lord . All those talks on Satan and sins has provided me deep knowledge to be more aware in future of evil powers controlling my mind and my life . Though I didn't not get to attend the healing prayers but I do feel a big relief in my heart. Thank you everyone. God bless me to have met all of you. Power of Lord is above everything n everyone . Praise the Lord. Amen .

My backpain was healed. Thanks and praise the Lord.

I want to thank Jesus for this retreat. this retreat helped Regina, my friend, 28 years she was suffering and yesterday during inner healing and adoration, Arokiadass and his team helped her with deliverance.

I want to thank Arokiadass team for praying for her. Thank you Jesus for this miracle for her. This is the day the lord has made for Regina's life. May she be an evangeliser in the future. Thank you Father Gino too.

The retreat was very enriching.

A month ago I received an invitation from the Seeds to be part of the ministering team. It took me a while to ponder on it and said my 'yes' to it. This is my first time serving in a ministry and going for a healing retreat. When I reach church on Thursday I had the fear to meet "the seeds" for the first time. I took the leap of faith n go for it.. I manage to handle the projection through the whole session.

During father Gino n Dass talk there is a lot of take away that I can practice such as "how much Jesus had been part of my life n how much time we had spent with him", on going repentance, and we are called to bring healing to the world by preaching, teaching and healing. I am so happy that I could be healed from all my past experiences during adoration. It make me feel so relieved n in peace.

Healing in Evangelization Retreat Weekend

I had no expectations when I signed up for this retreat as I know life is one unpredictable journey. I put my trust in the Lord who will lead me to where I need to go. Healing to me has always been my journey for and with others as I am a pastoral worker and member of the Padre Pio Group in St Michael's Church. First for my family, and later for people with problems He places in my path. But as I age myself, He has made more mindful to love myself and to see to my own needs as I prepare for my trip home to my Father in heaven. He has blessed me with the privilege of attending this healing retreat, an avenue to deepen my spiritual growth and to put Jesus first in my life always. I am very grateful for all that I've learned from Fr Gino in his sharing about what Prayer Life should be. I've learned how to increase the quality and duration of my time with God, not only in meditation and intercessory prayers for others, but with Praise, Worship, Adoration and Petition for myself. My daily life can be one continuous conversation with Him as He is full of love, compassion and mercy and an ever present companion. This retreat has also opened my eyes to the demonic and occult influences that plague our world today. Thanks to Deacon Ariokadass for his well researched sharing.

I'm truly thankful for my group leader Jessica Lim for her insights of her prayer life and gently helping us to share ours also. Well done to the Organising Team and all who have helped make this a truly meaningful and healing retreat for me. Led by the Holy Spirit I offer this prayer given to me today "O God, grant that my own comfort may never make me blind to the need and distress of others. Give me a caring heart like Jesus. Amen."

I have to be more focused on God. Daily directions must be sought from God by our daily conversations with God. We pray to God for directions as we as human beings are limited in wisdom and strength. I make church and service his a priority even though sometimes I have nothing much to ask for but His mere presence. It is the best best way to get my thoughts settled with God and who he is to me. I always feel that I am always protected ^{and} ~~for~~ ^{by} guided by my guardian angel and always leading me

to God.

I have tried inviting other types of spirits into my life but none gave me peace and satisfaction. Only with God I find peace and satisfaction. I have a powerful God who has infinite wisdom and power as well as generous and merciful and kind. He is the only one allowed to enter into my heart, life and home.

1. I ended my Healing in Evangelization Retreat experience with a certain reluctance to "return to the real world" after 3 days dedicated to spending time with God and focusing on the truly important things. Still, our retreat speakers reminded me to not become lukewarm or too comfortable in routine. As someone who came back to church after many years of worldly living and believing it was good for me, I can attest to the points made by both Fr Gino and Mr Arokiadass about the importance of forming daily habits of self-examination, watchfulness, repentance, renunciation of the devil and his works, and forgiveness.
2. Supernatural (miraculous) healing has always been something which has fascinated and puzzled me. I signed up for this retreat to find out for myself what its title meant! I am glad to say that my questions were answered - Fr Gino's talk has indeed given me a deeper understanding of why Jesus evangelized so often through works of healing and how this applies to our Christian mission today.
3. Though I was baptized as an infant, my conversion to Christ also began with immediate healing through prayer from demonic oppression 9 years ago. But despite taking a leap of faith and experiencing this personal miracle, it's still very much a lifelong journey learning to trust God on a daily basis and understanding my own role in His great plan. True healing (especially of the mind and spirit) is indeed a process, not a one-off occurrence! At this point in my process/journey, I found this whole Retreat very affirming!
4. Though I am still getting my bearings in my new life as a committed Catholic, I have been in a healing prayer ministry for several months now and hope to be a more effective and focused channel for God's healing graces upon those we minister to. I still need psychological healing from my worldly mentality and still struggle to recognize and overcome temptation and distraction, but I hope that the more I learn and experience, the more I can think less as man does, let go of ego, and be more in sync with the mind of God.

5. It was so wonderful and encouraging to hear about healings of all kinds taking place this past weekend from our small sharing group! I felt encouraged and comforted that so many people were experiencing God's love and growing in faith as a result, as this is a stark difference from my interactions in other circles. For me, meeting a new group for the first time is always intimidating. Yet, as we discover the different people from all walks of life and hear their personal stories, the sharing session becomes a highlight to look forward to! These open and frank sharing sessions were also very healing in their own way. During our personal prayer time on Saturday, I was moved by fear for the loss of many souls to pray for those who have not yet accepted Christ and what he stands for, that they too may one day learn to trust in Christ and share in his peace, joy, and fullness of life despite the ever-present troubles we all must continue to face in the world.
6. Praise God, Christ is alive and at work in his church! I will go forth bearing in mind the enlightening and convicting teachings from this retreat. Sharing the Gospel, no matter how powerful the words, is only as good as how we practice what we preach, and it starts with our own repentance. We must be a teaching, preaching and healing church, drawing always from Jesus: our perfect example of a servant of God. A huge THANK YOU and abundant blessings to the organizing team and all the ministries, groups and attendees which made this entire retreat what it was. May the Spirit of healing evangelization grow in all of us daily - God's kingdom come and His will be done on earth as it is in Heaven!

Andrea Orr

After Arotiadass, I recalled that 20yrs back I opened door for devil to come in as someone brought me to a meditation centre & open my chakra. So was asked to go for renunciation & confession & I felt very light, & release.

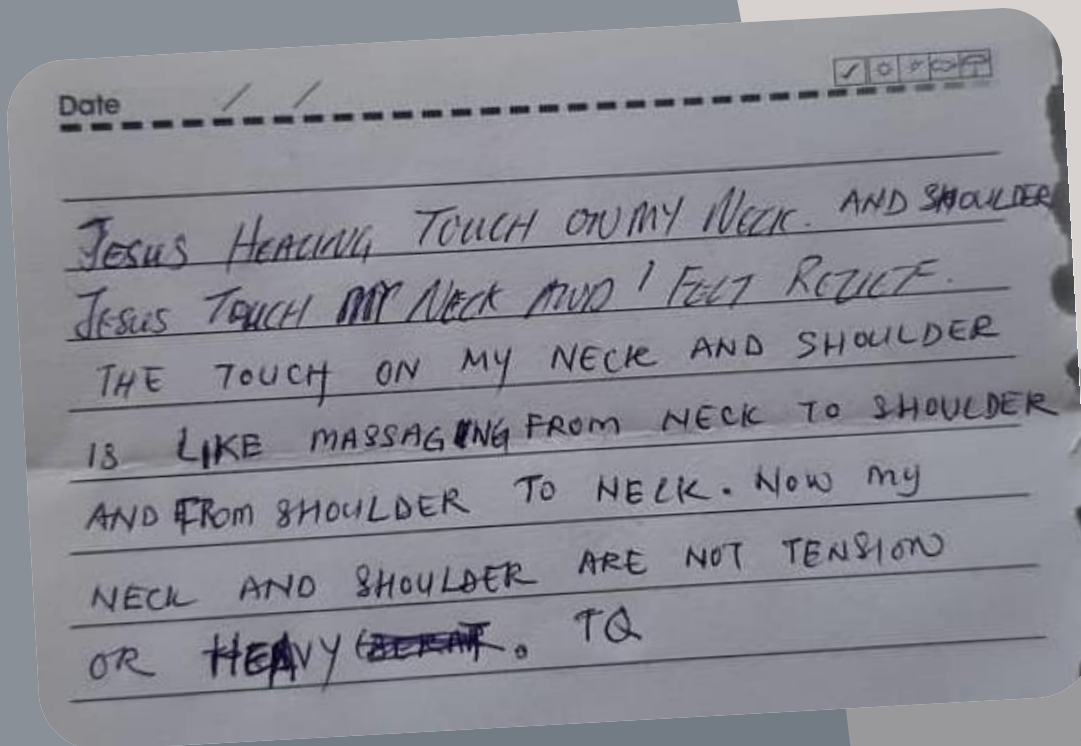

We need to Repent and come Back to God - each time we falter. For me - its in the Silence of my mind and trying to listen to God's soft promptings so that can help me to achieve it!

Quiet Quality Time - Spent with God, if possible, before the Blessed Sacrament is important.

To Father Gino, I am Mary Ng from SMC, Ipoh. I had been injured my leg and suffering Pelvic Bone and Nerve Pain in my right leg for more than 4 months. I had been under treatment by Orthopaedic Specialist and also doing Physiotherapy treatment till now. Last 2 weeks I did receive WhatsApp message inviting me to attend the Healing in Evangelization Retreat weekend. I was attracted by this message something like spiritual calling me to attend this retreat. I am glad to share to you that during the Adoration of Christ and Healing Session, I was 'slain' in Holy Spirit and felt a ray of light come from sacrament of Holy Communion penetrated into my heart and feeling an electric short circuit in my leg. After that I felt my leg was quite relaxed and did not feel any pain in my leg. Now I can stretching and strengthen my leg straight away and no more crooked leg. I was very happy and sharing it to my husband together with my friends after the Healing session. Praise and Thanks to Lord on Healing my leg. Alleluia! Alleluia!

More than 20 years ago, my nose had a growth, doctor set a date for an operation to take place 2 months later. Before the operation, I went to KL for a healing retreat by Fr Gino in St Anthony Church. When I was back to Ipoh and went for doctor's appointment 10 days later, the doctor said the growth is gone; I immediately thank God and Mother Mary. The doctor said if God can heal people, there is no need for doctor anymore, so I replied that it's by my faith in God that can move the mountain. I had no chance to see Fr Gino after that, so I quickly registered for this retreat in St Michael Church. I'm now 88 years old. Since I encountered God, my life changed; I go for daily mass even until now. My left leg is painful due to nerve problem, but I keep praying, asking Jesus to help me, thus I can walk every day to attend mass and Novena or St Padre Pio prayer. I'm a convert by marriage; I had only 2 weeks of catechism therefore I don't know a lot about the religion, so I attend formations to increase my understanding and strengthen my faith. When praying, I have Jesus' Sacred Heart and Divine Mercy pictures in my mind.

God works in His wonderful ways!! My companions & I arrived in Ipoh on 11/8, just in time for sunset mass. The moment we stepped onto St. Michael's Church grounds, the bells rang, calling out to us. Fr. Anthony Liew's homily on forgiveness, and freedom from the bondage of unforgiveness, set the tone for the weekend. At the beginning, Fr. Gino Henriques explained the "retreat". In the battlefield, to retreat meant to pull back, reflect, assess the current situation & make plans for the future. The aim of the weekend. Fr Gino, being the teacher, walked us through the Gospels. The need to read the Word of God daily. The need to put Jesus first - always!! Receive the Sacraments - allow God's grace to fill & renew us. Mr. Arokiadass Anthonymsamy brought to my awareness, practices that are harmful to Catholics & the tendency to fall into idolatry. Seed: purpose-full and prayer-full worship sessions, invoking the Holy Spirit to bestow charisms. During the weekend retreat, having the Word of God spoken to me (and with God's grace, I listened) allowed God's message to rest in my heart. I thank the Lord for the blessings of being present 🙏

My 3 days of healing retreat was amazing where I learnt alot of things. Firstly I build a close relationship with the Lord. I had so many doubts, ups n downs, whereby the Lord Jesus clarified for me. He healed me spiritually, physically and mentally. I experienced the love of the Lord Jesus presence in my life. He works miracles everyday in my daily house chores and in my pains. Thank you Jesus for your abundant blessings. I love You. JESUS.

Fr. Gino's sessions made me realize that our relationship with Jesus must be our top priority everyday. We must open our hearts to Him and listen to His voice through the Bible because He is The Word. God lives in us and His love must show in us and through us. Daily personal prayer and Bible reading and reflection on God's word is important. I have to find my own method to deepen my relationship with Jesus. Healing is integral part of Jesus' ministry besides preaching and teaching. The Church continues Jesus' ministry today through prayer + ^{the} Sacraments.

Mr. Arokiadas made me realize that the Devil is real and Christians cannot be possessed unless he allows the devil a foothold. We need to avoid all kinds of occult practices, demonic games, music, movies etc.

~~There~~ we must repent, denounce men, pray for deliverance and forgive others.

Personally, I came to the Retreat without any expectations. I felt called by God that I had to attend and despite many obstacles praise the Lord I could make it with the support of my spouse. I thank God that I am here and for the inspiring teachings of Fr. Gino and Bro. Arokiadas, I have new insights of what God wants to do for me.

As Fr. Gino said at the Healing service, God wants to heal all of us and we need to continually pray through the precious blood of Jesus, to be healed fully. That we may respond to God's call to bring the good news to others. Thanks to PDNEC & St Michael's church for organizing this Retreat.

Overall, I feel this is a very good experience to attend this "Retreat n Healing in evangelization". Even though it's the first time I take part, it's quite an enrichment to me, also can get lots of new information regarding healing n the skill how to apply too. As I'm involved in Prison Ministry, it will be helpful for me. I also wants to thank Lord for healing my wounds n sickness and also teach me how to tackle problems arises. Thank you Lord.

HE GOOD EXAMPLES TO SUPPORT ONGOING FORGIVNESS TALK..GOD BLESS

😊
I found the Retreat very encouraging & fruitful

1) It helped me to understand the power of prayers especially the prayer to St. Michael the Archangel and the sin against the Holy Spirit.

😊
2) Also learn that the greatest hymn of praise to God is to be found in the Eucharistic Prayer 'through Him, and with Him, and in Him.....'

② After the barber's close, I had severe scalp skin disease. I tried many things, western + natural but it became worse. Yesterday, went Fr Gino spoke about skin disease, I claimed healing from the Lord. Today, it's less and I believe it will dry up and will heal completely.

③ Jesus also healed me from the pimple from my face. It left like smoke coming out from the chimney.

I felt the love of Jesus particularly in experiencing His mercy. It feels He has also reminded me not to be complacent with my ability to fight the many temptations that come my way. The more I try harder, the more the devil works. I need to be more and more vigilant by being husband to the word of God. It all starts with how I think and how I plan my thoughts into action. I need to bring Christ in everything.

Each of us is broken and in need of healing in one form or another: emotional, spiritual, physical etc.

For us to evangelize we need be compassionate, kind and loving. This way we can heal. And when we heal others of their hurt, only then we can begin to teach and preach.

I came to this healing session prayer with great expectations of something good from Fr. Gino. I am not disappointed. We were told beforehand to have a good confession before the healing session in SMC yesterday. So, I went to the Noona church (Lump) to get my confession from one of the redemptorist priests after the 9am novena because usually there was a priest for confession after the novena to Our Lady, but there was no confession. We were told last Friday that we could go to mass in the convent next door for our morning mass on Saturday 13th August. On Friday Fr. Gino explained why many sins remained people's hearts after a confession and how we must take a long time - a continuous preparation. When I attended mass at the convent, many fond memories returned e.g. how I enjoyed my 4th Easter midnight mass there more than fifty years ago.

ago & the priest celebrating, the late late Jesuit priest was a very good preacher. The atmosphere in the H.I.J. convent was emanating with the holiness of many past nuns which gave me a flip towards ensuring a good confession though it was Fr. Anthony Liew whom I have never ~~at~~ gone to confessed to before. I didn't dream that the mass in the convent was the prelude to a good confession to which Fr. Gino said was a necessity for healing to work. God be praised! I really enjoyed this retreat especially on Saturday, cos the devil was trying to pursuit me to not to go to Fr. Anthony as he was a student of my school in Chemor. I used to go to confession every Saturday to Fr. Ciatti who baptised me in Easter 1965. After the confession to Fr. Liew, my mood was in cloud nine & I enjoyed this retreat like I have never before cos my leprosy (sins) have been cleansed!

In this Retreat I learnt the importance of Prayer life. The importance of Reading the word of God is something we need to put aside some time for. Fr. Gino talks on repentance and his emphasis that this must be ongoing makes us realize that we are all sinners and confession as a sacrament is very important and we need God's forgiveness. Jesus was tempted so are we and we must be careful not to let the door open for the devil to come in.

Last Night the Healing season was amazing, and I felt the anointing of the Holy Spirit to my mind body and soul. It is a great task to contribute this I believe is very important coz our Christian Community stands firm in the same faith and everyone should have more of in the awareness of what we all have prayed for.

Thank you Father Gino Henriquez.
